

WE ARE THE

# PRO-LIFE GENERATION,

AND WE WILL **ABOLISH ABORTION IN OUR LIFETIME.**

STUDENTS FOR LIFE OF AMERICA EXISTS TO RECRUIT, TRAIN, AND MOBILIZE THE PRO-LIFE GENERATION TO ABOLISH ABORTION.

## LORI CASCIO

Lori knows that without empowering the upcoming pro-life generation with knowledge, information, and truth to support a Biblical worldview, the tragedy of abortion will not change. In her senior year of high school, Lori started a Students for Life Club. When she filed the paperwork to become an official club, the principal refused to sign the papers. She kept pushing forward, and as she did, the mission of empowering women and students grew stronger than the resistance of the school administration. Her persistence paid off, and over five years later, the club is still running at her public high school.

Lori is passionate about empowering students to become pro-life leaders. She is a committed go-getter who graduated from George Mason University with a degree in non-profit administration in only three years. Married since 2016, Lori has a little girl named Alice. Lori covers a variety of topics such as *Pro-Life Apologetics*, *We Don't Need Planned Parenthood*, *Embracing Controversy*, *Student Activism*, *The Pill: What They Don't Tell You*, and *What has Roe Done?*

Students for Life speakers seek to empower and multiply this Pro-Life Generation to accomplish our mission of ending abortion in our lifetime. We are unafraid to be a voice for the preborn and warriors to take on the abortion industry right where they target, our nation's college and high school campuses. We understand that education is the key to equipping this generation with the truth and answers to those hard questions they will inevitably face when standing firm and standing up for righteousness.
