

WE ARE THE

PRO-LIFE GENERATION,

AND WE WILL **ABOLISH ABORTION IN OUR LIFETIME.**

STUDENTS FOR LIFE OF AMERICA EXISTS TO RECRUIT, TRAIN, AND MOBILIZE THE PRO-LIFE GENERATION TO ABOLISH ABORTION.

MICHELE HENDRICKSON

Michele became pro-life in high school after researching the issue for a school speech. Tragic images portrayed the heartbreaking reality of abortion and she was immediately convinced that this could never be a solution to unwanted pregnancy.

Michele Hendrickson graduated from Hood College in Frederick, Maryland majoring in Elementary and Special Education. After beginning her teaching career, Michele found Students for Life and is now dedicated to educating and empowering women to understand the truth about abortion.

As the East Coast Field Director with Students for Life of America, she helps student groups and Regional Coordinators bring the pro-life message to their campuses and beyond. Michele is also a District Pastor for the Church of the Nazarene, and resides in Maryland with her husband and two kids. If you would like to request Michele to speak at your church or school, or help start a group on your campus, please email mhendrickson@studentsforlife.org

Students for Life speakers seek to empower and multiply this Pro-Life Generation to accomplish our mission of ending abortion in our lifetime. We are unafraid to be a voice for the preborn and warriors to take on the abortion industry right where they target, our nation's college and high school campuses. We understand that education is the key to equipping this generation with the truth and answers to those hard questions they will inevitably face when standing firm and standing up for righteousness.
